Pre-K News: March 2017

What We Are Learning...

This month our Pre-K students will be learning All About Water. By the end of the unit students should understand:

- Water is all around us.
- Water changes depending on how warm or cold it is.
- Some things float in water and some sink.
- Some things changes when you put them in water.
- All living things need water.

We are reinforcing recognition and value of numerals 0-10.
